William Penn Memorial Museum Building  
Box 1026  
Harrisburg, PA 17120

December 17-18-19, 1982, page 1

6:30 Martz bus to Scranton; arrival at 8:55 P.M. Hamburgers and wild rice. I prepared a mailing of 127 CARBONDALE CALENDARS 1983. One hundred and six of the calendars were mailed to Carbondale people, including the mayor and the members of the city council. The majority of the 106 went to Carbondale buisnesses: the calendars that went to the mayor and the council went with the compliments of SRP; those to the businesses went with the compliments of the CHS. The cost of mailing 127 calendars was \$27.94. I finished doing the mailing by 2 A.M. and went to bed. On 12-18-1982, I went to the Post Office at 10 A.M. and did the mailing. On my way back from town I stopped to make sure that Louise Thomas had a good supply of calendars. She did. I stopped at RTP's to tell him that I was planning on working in the P.M. at City Hall. He said that he would be down. Excellent. I went home for luncheon: roast chicken. At 1 P.M. I went to City Hall and Bob Tomaine was there in front of the building. Jane Dailey arrived soon thereafter and we three worked at sanding and spackling. RTP arrived in mid-afternoon and he put up the sheet rock on the west wall of 301. RTP and Jane like each other. At 5 P.M. I went down to Mister Donut and bought refreshments. We worked until 9 P.M. RTP suggested a Sunday morning work session and I was delighted. When I got home on Saturday night there were spare ribs and Spanish rice waiting for me. Delicious. I stuffed envelopes for a regular promotional mailing: they are all set to go; all they need is addresses. To bed. On Sunday the 19th RTP and I were at CCH by 10:30 A.M. I rode down to Brookvalley with WSP. RTP put ashes in the back of the red truck and we loaded the back of the truck with about seven large leaf bags of cloths and such that Ann wanted us to put in the Goodwill box in Ames Plaza. We did. RTP finished putting the sheet rock on the West wall of 301. I cleaned up the hall on the landing outside of 301 and on the landing between the second and third floors. I spackled. RTP and I worked alone. At 1:45 P.M. we stopped. Ann wanted a curtain rod and so we went to Ames and bought one. At home by 2:15 P.M. and luxurious shrimp and spanish rice were waiting. I spent the late afternoon organizing in the attic and got ready for a 6:30 departure buecause a major storm was predicted for the afternoon. I got the 6:30 bus and the ride back to NYC was hair raising: we slid from Scranton to Hackettstown, where the roads were bare, at last. I was back at 790 by 10 P.M. The weekend was short but very productive: I wanted to get in the two work sessions (Saturday and Sunday) because I knew that it would be impossible to get any work done over the Christmas weekend. It now seems likely that we will have 301 ready for the photography show in late January or early February. Russell has been an absolute prince in this restoration matter. The work would not nor could not be done without his direction. I will make certain that RTP gets appropriate credit for all he had done in the restoration of 301.

Susan Stephens telephoned HLRP on Saturday morning to say that she would like to help sand and spackle but she has a wedding to attend. JVB did not show up on Saturday. He telephoned HLRP on Sunday to say that he had spend 12 hours chopping wood on Saturday and was too tired. He said that he would show up on Sunday afternoon at CCH but he did not.
